

Aufbauwerk Region Leipzig GmbH (°1994) is a joint municipal cooperation of the City of Leipzig and the surrounding administrative districts. A long history of success in managing EU-projects and economic development measures characterizes Aufbauwerk Region Leipzig GmbH.

Our shareholders

- The City of Leipzig
- The administrative district Leipzig
- The administrative district Mittelsachsen
- The WFG (Wirtschaftsförderungsgesellschaft) mbH of the administrative district of Northern Saxony

Corporate purpose

The business area of the company is the integrated promotion of economy and employment. A special focus is the bundling and consolidation of economic and employment promotion. The development of appropriate projects and the combination of different financing forms and sources play a special role.

Our services

- Planning and execution of efficient finance management
- Financial monitoring and controlling
- Support during procurement process
- Support during certifying processes of expenses
- Management of funds / client counselling
- Accounting – from form creation to entire project accounting

A well organized and structured finance management contributes to the successful completion of a project. Thanks to our experience and expertise as project leaders, we have completed a big number of projects successfully. During a project, the constant updating of finances and continuous counselling with regards to financial questions, are inevitable tasks. Our partners will be actively supported during the application, reporting and certifying phases as well as during application changes.
